Only Two Members in Favor of Retaining Resolution Authorizing Payment of \$4,650 for a New Auto-Chemical -Disapproval of Attempt to "Sneak-in" this Bill Without Authority Either of Council or of City Meeting, -Chairman Beckley Stated Position.

An embarrassing and rather unprecedented tangle in the affairs of the board of fire commissioners was disclosed at a special meeting of the court of common council Tuesday night. At the regular meeting Monday ovening the fire department bill presented by Chairman Thomas H. Beckley amounted to \$5.595.37, nearly three times the normal amount of the current expenses. In the course of routine, this discrepancy in amount was temporarily overlooked, but it came up after the meeting when among the bills for the month that of \$4.656 from the Poppe Manufacturing company of Hartford for a chain drives motor combination chemical hose wagon greeted the surprised mayor and all the members of the council save the fire commissioners. They knew it was there, and it also developed that there was dissension in their ranks because of its presence there. The large amount of the bill gave rise to comment Monday night, but Chairman Beckley said that it would come out.

Surprise for Mayor and Council.

Mayor Murphy and the members of the common council gave the problem.

Many Gilt-Edged ideas.

Mayor Murphy and the members of the common council gave the problem consideration after recovering from their considerable shock of surprise at learning that Norwich had become the possessor of a new autochemical without their knowledge, and on Tues-day decided to have a special council meeting immediately to take action on the burchase of this superatus coating music in the schools has left to pass some time at Truro, Mass. with friends.

Miss Margaret McGarry of Norwich is visiting her cousin, Miss Mazle McGarry, of Connecticut avenue, New London.

C. C. Eldredge has returned to his home in Norwich after visiting his sister, Mrs. Alice Chapman, Broad street, Groton.

meeting immediately to take action on the purchase of this apparatus, costing 44.650. That part of the resolution authorizing the payment of this bill of the Fope Manufacturing company was rescinded with only two opposing votes those of Alderman Beckley and Councilman Milo R. Waters. Today Mayor Murphy will take up the matter with the Hartford concern from which the machine was ordered without the authorization of the city government.

No Mention of Auto-Chemical The mayor called the special meeting to order at 8.05 o'clock with quite a number in the chairs outside the railing. Clerk Moore's roll call showed all present except Councilman Baker. ing. Clerk Moore's roll call showed all present except Councilman Baker. Mayor Murphy said that after the adjournment of the court of common council Monday night his attention was first called to the bill, which had passed through unnoticed, the fact that it was larger than usual being accounted for casually by the repair bill for the autochemical. He called the attention of the council to the last city meeting, and even earlier than that, the meeting of the heads of departments for the estimation of expenses for the coming year. At this meeting Mr. Beckley recommended \$1,000 or so more for the fire department, but at the same time wished to keep the tax within ten mills. At the city meeting Mr. Beckley gave an explanation of the amount of money he wanted for his department, and a mo-Alderman McLaughlin asked whether if the vote were not rescinded the expenses would exceed the appropriation of \$35,000. Mayor Murphy asked what right the fire commissioner had to sell any property of the city outside of running apparatus without the authority of a city meeting, and what would be done if the city did not so vote? Mr. Beckiey replied that his ideas were along the line of economic progress and that he had perfect confidence in the people, because the maplanation of the amount or money wanted for his department, and a motion was carried that \$35,000 be appropriated, that amount to cover the avanages of the firemen. Nothextra expenses of the firemen. Nothchemical. The mayor doubted if the common council could conscientiously recommend spending \$4,600 without

the people knowing what it is for. The mayor then read the recommendations of Chief Stanton for more motor-driven fire apparatus. Camp Sanitary has opened at Wintergreen Point for the summer and is composed of the following young men from this city: Channing Huntington, Howard Benjamin, Lowell Stark and Charles Willey.

Mr. and Mrs. George H. Patridge.

called to enable the council judgment in so doing.

Councilman Kramer, the minority member of the board of fire commissioners, forthwith presented the following resolution and moved for its property on Main street was valuable adoption:

Tatus, with a chain drive, success the Norwich elevations, at a price \$850 below the market price, due to factory conditions. The company is in a receiver's hands. Also the house and property on Main street was valuable adoption:

Whereas at a meeting of this court of common council held July 6th, 1914, a vote was passed to pay the bills presented by the Committee on Fire Department, which bills had been approved by a majority of said Com-mittee, but not by all of the members thereof, and in the list of bill so presented was one from The Pope Man-ufacturing Company, in amount (\$4650) orty-six Hundred and Fifty Dollars, for certain fire fighting apparatus, known as a Pope Hartford Chain Driven Motor Combination Chemical and Hose Wagon and said bill, before the vote taken as aforesaid, had not been read before this council and many maintenance of the council and many maintenance of the council and many members of the council were not aware that said bill was in the list bills presented and were not aware of bills presented and were not aware that there had been any negotiation for the purchase of said apparatus; and Wheras it appears to this body that no appropriation has been authorized for the payment of said bill or for the purchase of the costly apparatus mentioned, and said vote as to the payment of said bill of \$4650 was passed by mistaks without consideration and ment of said bill of \$4650 was passed by mistake, without consideration and without authority: now therefore, be it Resolved. That the vote providing for the payment of said sum of \$4650.00, and all action taken at said meeting of July 6th, 1914 in regard to making an appropriation for such pay-ment be, and the same are hereby re-scinded: and Resolved. That this count of same

Resolved That this court of common council hereby disapproves of the attempted purchasee of said apparatus and advises and directs that it be not received by the City of Norwich or by any of the representatives of said city.

Has Done Duty Faithfully. Alderman Beckley, chairman of the board of fire commissioners, took the floor. All that he had said before the noor. All that he had said before the city meeting or in private had been acted up to in every respect, he began. As fire commissioner he has authority to perform various functions, and he had carried out faithfully his duty. He read sections 2 and 3 of the ordinance of 1902 stating the powers of the fire commissioners. These sections are fire commissioners. These sections are

did not have good credit with the Pope company.

In conclusion, Mr. Beckley stated that he shirks none of the responsibility and accepts all of the odlum of the business. We think we have acted within the ordinance and are assured that the people are with us.

Then the vote was taken rescinding the resolution and the meeting adjourned shortly before 9 o'clock. Authority of Commissioners.

Section 2. Said committee on fire department, shall keep such buildings in good repair and shall equip the same with suitable furniture, fixtures, hoses, engines, trucks, carriages and other proper apparatue, and shall provide horses necessary for the work of the department, and may sell or give in exchange any of the personal property of the department which may be unsuitable for use, and shall from time to time communicate to the fire department, through the chief of such department, such orders as said comdepartment, such orders as said com-Authority of Commissioners. Shortage in Louisville Controller's Louisville, Ky., July 7.—Samuel Whilite, city controller and prominent in Louisville club and social circles, was arrested today, charged with embezzlement of city funds, following a report by expert accountants that they had discovered a shortage of approximately \$14,500 in the controller's office.

partment, through the chief of such department, such orders as said committee may make for the regulation and efficiency of the department and the care of its property.

Section 3. Said committee shall determine the number of fire companies for the city, the number of men for a company, and what officers shall be attached thereto, shall have the power to appoint, suspend and displace such men and officers, fix their compensation, which shall be paid by the city of Norwich, through the treasurer of the city, prescribe the duties to be performed by all persons connected with the department, and the amount of service which each shall render.

COLLEGE FOR WOMEN. Track from Main Trolley Line Will Facilitate Building Soon to Start.

At the New London court of com-mon council's session Monday night Senior Alderman Miner read the folmon council's session Monday night Senior Alderman Miner read the following petition from the Shore Line Railway Co. Permission is respectfully requested to place a siding or switch, with necessary overhead construction, from the company's main line in Mohegan avenue, at a point just south of Reservoir street, for the purpose of providing facilities for handling material and merchandise, in connection with the development of the Connecticut College for Women.

Mayor Mahan said that doubtless all present were familiar with the cheering news that the contract had been practically awarded for the construction of four handsome buildings for Connecticut college. He said that the proposition of the street railway company was simply one to facilitate the transpotation of materials to the college grounds. Mayor Mahan then introduced President Perkins.

The latter, standing on the platform beside the mayor, laughingly observed that he felt highly honored at being in the front of so distinguished a body. Usually, he said, he was very much in the rear. Mr. Perkins stated that the proposed siding would accommodate about three cars. The purpose of it is to facilitate transportation of material to the college site. For Instace he said, sand will be transported from other gentleman has not been attentive. But men of a coarse cast of mind sometimes slip in and block the wheels of progress. Mr. Beckley had approved a bill of \$350 from Kramer & Henderson for moving the Greeneville apparatus, and so there was cause for

paratus. But he was for motor-driven apparatus. But he was for motor-driven apparatus and a living wage. He hoped that the vote of last night would not be rescinded. He would take the case before the people and have them judge whether he was right or

rial to the college site. For instace he said, sand will be transported from he said, sand will be transported from the Water street station, via trolley, to the college grounds, thus obviating the congestion caused by a continuous procession of teams. Mr. Perkins said if there were any questions to be asked he would be giad to answer

to give the aldermen an opportunity to examine the blue print which ac-companied the petition. At the concompanied the recess Alderman Small moved that the petition of the street railway company be granted, and the motion was unanimously carried. Alderman Beckley declared that the expense of the department under his regime has been less than in the last
